CORONADO[®] SD

VOCATIONAL
SEVERE DUTY

CORONADO **SD**

Reporting for duty. Severe duty.

What defines a hard day's work? Pulling larger payloads? Hauling more aggregate? Maneuvering in tight situations?

With the ultimate combination of durability, uptime and all-day efficiency, the Freightliner Coronado® Severe Duty (SD) truck is completely customizable to meet operational and business needs, with wheel base and axle configurations for almost any application.

Tough on the outside, comfortable on the inside, the Coronado SD is built to work as hard as you do. And that's an accomplishment.

- 58" Mid-Roof XT
- 58" Raised Roof
- 70" Mid-Roof
- 70" Mid-Roof XT
- 70" Raised Roof

Extreme loads, meet your match.

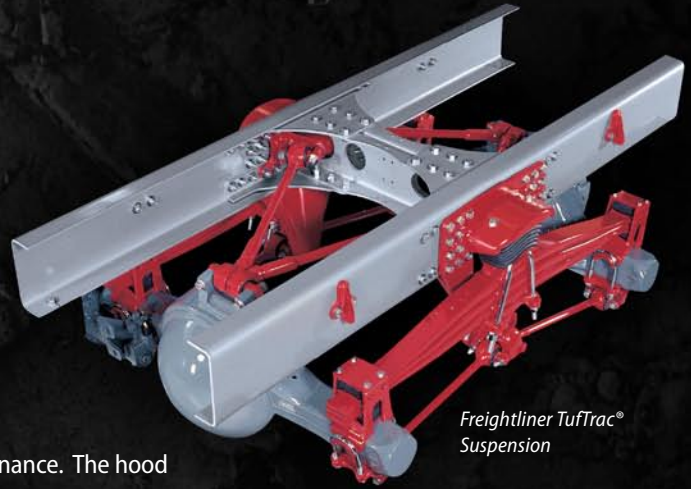

The Coronado Severe Duty offers a wide selection of suspension and transmission options so you can spec the truck for the task at hand. But it's what's under the hood that delivers the power you need to muscle through the most extreme situations. From Detroit Diesel's line of engines, the DD13™, DD15™ and DD16™, to the Cummins ISX15, the Coronado SD has the power rating you need for the job—and the efficiency to enhance your bottom line. All engines meet 2010 EPA requirements with Selective Catalytic Reduction (SCR) emissions technology.

The Coronado SD also features a wheel cut up to 50 degrees that negotiates tight spaces and wins. And with steer axles rated from 12,000-22,000 lbs., drive axles rated from 23,000-70,000 lbs. and a 1,900 square-inch radiator to cool engines up to 600 hp with loads up to 160,000 lbs. GCW, there's no doubt: The Coronado SD is ready to take on anything, any day.

Downtime – don't even think about it.

Every detail of the Coronado SD is engineered for durability and ease of maintenance. The hood tilts 90 degrees for easy access to the engine compartment. The one-piece fiberglass hood is spring assisted, requiring just 40 pounds of lift effort to open. Once under the hood, see-through fluid reservoirs let you check levels at a glance. In the cab, the Power Distribution Module (PDM) is mounted in the passenger-side dash for easy access and superior protection from moisture and dirt. The Coronado SD is equipped with the single Donaldson® Advanced Power Core air filter that stops as much dirt as traditional dual cowl mounted air filters. It's easy to replace without the risk of engine "dusting" while servicing.

Donaldson Advanced Power Core Air Filter

Hard to the core.

The Coronado SD has the rugged styling you would expect in a vocational truck. With features like an aluminum cab, chromed steel front grille and single-piece fiberglass hood, the Coronado SD raises the bar for durability. For bumpers, you have the choice of chrome, aluminum or painted steel. Sure the Coronado SD looks good, but make no mistake: It's the ultimate work truck down to the core.

Optional Signature Oregon Burl Wood Dash

Standard Bandon Driftwood Dash

Tough on the outside. Comfortable on the inside.

The Coronado SD is equipped with all of the amenities a hardworking driver demands—and deserves. You'll find details such as a wide and roomy cab; solid, tightly-sealed doors; and single-piece HVAC registers to keep the interior cool during a long day at the job. The driver-friendly dash features controls and switches that are placed within easy reach of the driver. The analog gauges are backlit with LED lights for easy readability. The dash structure is designed with fewer sections making it one of the quietest and most durable dashboards we've ever made. Add the optional Oregon Burl wood trim and accents, and comfort never looked so good.

We've got you covered.

Unmatched service and support.

With more than 400 Freightliner dealer locations across North America, you're never far from the convenient service and support you have come to expect from the industry leader. In addition, over 200 Freightliner ServicePoint® facilities located at TravelCenters of America and Petro Stopping Centers offer certified repair and warranty work. When you need a factory-certified technician, Detroit Diesel offers more than 800 locations in North America. Freightliner also maintains strategically located parts distribution centers throughout North America, ensuring fast parts delivery to keep customers up and running.

Freightliner's Customer Assistance Center provides customers a hotline that's available 24 hours a day, seven days a week. Customers may call the toll-free number (1-800-FTL-HELP) for technical support, to arrange roadside assistance or towing services, or to locate the nearest dealer or service center.

A simple purchase process that's second to none.

Purchasing a truck is one of the most important decisions you make. Freightliner makes the buying process easy, with highly trained sales consultants and one of the largest dealer networks in the industry, so businesses don't have to look far for their next purchase. Trucking professionals count on Freightliner dealers for reliable product information, truck parts and service, and ongoing customer support.

Financing is easy.

Daimler Truck Financial (DTF) offers a variety of options, including loans and leases tailored to the trucking industry that make financing go smoothly. DTF has been meeting the financing challenges of owner-operator and vocational customers for over 30 years. It offers finance solutions including conventional retail financing at attractive and competitive rates, a variety of terms to match cash flow, and up to 100% financing for qualified customers.
