# PARTS NUMBERING SYSTEM

## PARTS NUMBERING SYSTEM

---

The Alliance Truck Parts numbering system is set up systematically:

Example - ABP N60C 8039S.

All parts numbers in this program contain the prefix ABP and N60C (the company assigned code for this program) The number following the N refers to the part segment and is different for each. The last six digits are assigned based on part and design.

All parts in the catalog are set up with an Alliance Truck Parts number. In the back of this catalog you will find an extensive cross reference list. This will help link another manufacturer's part to an Alliance ABP number.

# WARRANTY

## WARRANTY

---

Alliance truck parts are backed by a 1-year/unlimited-mile standard warranty.
